Product Description

UP1100 AC DUO 2X550W UAV Battery Charger Drone Lipo Charger 1100W

High power output: 550W per channel, which can efficiently handle large-capacity batteries and shorten charging time.
Dual-channel: The ability to charge two batteries simultaneously increases productivity and reduces downtime, which is critical for commercial and industrial drone operations.
Ac power supply: The charger runs on AC power, making it easy to use in a variety of locations without the need for a separate DC power supply.
Safety Features: Advanced chargers like the UP1100 AC DUO typically include safety features such as overcharge protection, overcurrent protection, short circuit protection, and temperature monitoring to ensure safe charging.
User interface: These chargers typically come with an intuitive interface that includes an LCD screen or a digital display that provides real-time information on charging status, battery health, voltage, current, and more.
