## Product Description

### **QINGLONG VTOL tandem wing Take-offweight 35kg**

Combined desian of tandem wing and multi-rotor, Qinglong can take-off and landingvertically, which don't need special runway and large scale take-off and landing site. Be-cause of the high aerodynamic efficient layout, Qinglong's flight time can reach over 10hours;

Cruising engine propeller is set in the tail of the fuselage to build a aerodynamic shape.which decreases the air resistance while increases the thrust force. Rear engine desianleaves more space for large payload.
