Product Description

Microhard P840 Radio Flight Controller

The Microhard P840 is a robust and versatile radio module designed for reliable and secure wireless communication over long distances. It is often used in applications such as unmanned systems, industrial automation, and remote monitoring.

Our Product

Frequency Bands:

Operates in the 900 MHz ISM (Industrial, Scientific, and Medical) band, which is suitable for long-range communication with good penetration through obstacles.

High Data Rate:

Supports data rates up to 1.8 Mbps, providing sufficient bandwidth for various data-intensive applications.

Long Range:

Capable of communication over several kilometers (up to tens of kilometers) depending on the environment and antenna setup, making it ideal for applications requiring long-range connectivity.

FAQ

Q1: Do you support OEM/ODM?

A1: Yes. We can print your logo on the product.

Q2: About samples.

A2: Under normal circumstances, samples will be ready within 7 days, and 10-20 days for OEM/ODM orders. Sample fee and shipping will be charged.

Q3: What is the delivery time?

A3: For regular orders, we can ship within 15 days, for OEM/ODM, we can ship within 25-45 days (depending on the quantity). In the event of delays, we will notify you in advance of the status and resolution.

Q4: What is the minimum order quantity?

A4: There is no MOQ for wholesale (1 piece accepted), including OEM/ODM.

Q5: What are your payment terms?

A5: L/C.TT100%.

Q6: Can you reduce the shipping cost?

A6: When calculating the shipping cost for you, we always choose the cheapest and safest express. Although we have partnerships with shipping companies, we can't keep costs down because it's not us who get paid. If you think it's expensive for you. You can always make your own choice.

Q7: Return policy.

A7: If you want to replace the received item, you must contact us within 7 days after receiving the item. Returned items should be in their original condition and you should pay for additional shipping.
