

SPIRO Anhedral Winglets 20x8 Inch Polymer Folding Propeller

Our Product Introduction

for more products please visit us on uav-vtoldrone.com

Basic Information

- Place of Origin: Guangdong, China
- Brand Name: GS
- Model Number: 20x8 inch
- Price: Negotiable
- Delivery Time: 6-8
- Payment Terms: T/T
- Supply Ability: 100

Product Specification

- Size: 508 X 203.2 Mm
- Single Weight: 55 G
- Operating Ambient Temp: -40°C-65°C
- Storage Humidity: 85%
- Best Performance Speed: 3300~4500PRM
- Usually Thrust: 1.9~3.5kg
- Single Ultimate Thrust: 9kg
- Highlight: **SPIRO Anhedral Winglets propeller, polymer folding propeller, 20x8 inch polymer folding propeller**

Product Description

SPIRO Anhedral Winglets 20x8 inch polymer folding propeller

The folding mechanism of carbon prop SPIRO AW 2080 has undergone very rigorous assembly test and increases the contact area of the lock screw thread, so as to greatly reduce the risk at the oars due to loose screws. The upper and lower prop plates are made of high strength imported aluminum 6061-T6 to ensure better rigidity and strength of the prop plates. M3 high strength screw is used for folding prop lock screw. The contact surface of prop plate is equipped with customized high-quality Teflon gasket, which has longer service life and higher safety factor.

HAVOC drone folding prop is made of composite carbon fiber and engineering plastic, ultralight and solid.

Through continuous calculation analysis (CFD) and simulation, the most suitable airfoil scheme of multirotor aircraft is obtained. We focus on improving efficiency while cruising. The prop adopts high lift drag ratio airfoil in order to improve flight efficiency and response speed.

The 2080 folding prop adopts the design of tail tip upwarping extension and the prop tip reduces eddy current, so as to reduce vibration, reduce noise, and increase efficiency.

SPIRO AW 20x8in AW=Anhedral Winglets

HAVOC drone folding prop is made of composite carbon fiber and engineering plastic, ultralight and solid.

NEW/PRODUCTS

DESIGNED FOR LONG ENDURANCE UAV APPLICATION

SPIRO AW 2080

Through continuous calculation analysis(CFD) and simulation, the most suitable airfoil scheme of multirotor aircraft is obtained. We focus on improving efficiency while cruising. The prop adopts high lift drag ratio airfoil in order to improve flight efficiency and response speed.

55g Single weight 5% Efficiency Improvement

Optimized moment of inertia, more sensitive responsive reaction

The 2080 folding prop adopts the design of tail tip upwarping extension and the prop tip reduces eddy current, so as to reduce vibration, reduces noise, and increases efficiency.

SAFE RELIABLE EXCELSIOR

The folding mechanism of carbon prop SPIRO AW 2080 has undergone very rigorous assembly test and increases the contact area of the lock screw thread, so as to greatly reduce the risk at the ears due to loose screws.
The upper and lower prop plates are made of high strength imported aluminum 6061-T6 to ensure better rigidity and strength of the prop plates.
M3 high strength screw is used for folding prop lock screw.
The contact surface of prop plate is equipped with customized high-quality Teflon gasket, which has longer service life and higher safety factor.

12mm Contact area of locking screw thread

Basic parameter

Size	508 x 203.2 mm
Single weight	55 g
Material	Carbon plastic composite
Structure	Folding
Operating ambient temp	-40°C-65°C
Storage humidity	< 85%
Best performance speed	3300-4500RPM
Usually thrust	1.9-3.5kg
Single ultimate thrust	9kg

Packing list

Accessories list	name	quantity
	SPIRO AW 2080	1pair
	M3X10 mm	4pc

Our Services

1. We provide 1 Year Warranty. Buy with confidence.
2. If you are not satisfied when you receive your item, please return it within 14 days for a replacement or money back. Please contact me before you return it.
3. If item is defective in 3 months, We will send you a replacement without extra charger, or offer refund after we receive the defective item.
4. If item is defective after 3 months, you can still send it back to us. We will send you a new one after receiving the defective item. But you have to pay the extra shipping fee.

FAQ

Q1: Do you support OEM/ODM?

A1: Yes. We can print your logo on the product.

Q2: About samples.

A2: Under normal circumstances, samples will be ready within 7 days, and 10-20 days for OEM/ODM orders. Sample fee and shipping will be charged.

Q3: What is the delivery time?

A3: For regular orders, we can ship within 15 days, for OEM/ODM, we can ship within 25-45 days (depending on the quantity). In the event of delays, we will notify you in advance of the status and resolution.

Q4: What is the minimum order quantity?

A4: There is no MOQ for wholesale (1 piece accepted), including OEM/ODM.

Q5: What are your payment terms?

A5: L/C.TT100%.

Q6: Can you reduce the shipping cost?

A6: When calculating the shipping cost for you, we always choose the cheapest and safest express. Although we have partnerships with shipping companies, we can't keep costs down because it's not us who get paid. If you think it's expensive for you. You can always make your own choice.

Q7: Return policy.

A7: If you want to replace the received item, you must contact us within 7 days after receiving the item. Returned items should be in their original condition and you should pay for additional shipping.
