

EV Agricultural Drone Can Hold 10L Plant Protection Drone

Our Product Introduction

Basic Information

- Place of Origin: Guangdong, China
- Brand Name: GS
- Model Number: EV410
- Price: Negotiable
- Delivery Time: 6-8
- Payment Terms: T/T
- Supply Ability: 100

Product Specification

- Developed Size: 1100*1100*600mm
- Folding Size: 650*650*600mm
- Weight: 12KG
- Flight Speed: 3-8M/s M /s
- Maximum Takeoff Weight: 28KG
- Maximum Pump Pressure: 0.8 MPa
- Flight Time: No Load :20-25Min/ Full Load :7-10Min
- Battery: 12S 16000mah
- Charge Cycle: 300-500/ Time
- Materials: Carbon Fiber/Nylon Fiber/aluminum Alloy
- Diagonal Wheelbase: 1400mm
- Operating Voltage: 44.4 V (12 S)
- Load: 10L
- Spray Width: 3-5M/s M /s
- Spray System: Pressure Sprav

Product Description

EV Agricultural drone Can hold 10L Plant protection drone

Payload capacity:

The drone is designed to carry 10 liters of liquid and is suitable for spraying insecticides, herbicides, fungicides or fertilizers over large areas of farmland.

Electric Vehicle (EV) design:

As an electric drone, it has lower operating costs, less noise and less environmental impact than gas-powered drones. Electric drones are generally more efficient and require less maintenance, making them a practical option for farmers.

Advanced spraying technology:

It is equipped with a precision spray system that ensures the uniform distribution of chemicals, minimizes waste and reduces environmental impact.

Features such as adjustable nozzles and control systems can tailor application rates to crop needs.

Autonomous flight:

Many modern agricultural drones have autonomous flight capabilities, allowing them to fly fields on predetermined routes for effective coverage.

These drones can often be programmed or controlled via a smartphone or tablet app, making it easy for even people with limited experience to operate them.

Real-time monitoring and data collection:

Some models may include sensors for real-time monitoring of crop health, humidity levels, and other key factors to help farmers make informed decisions about crop management.

Integrated cameras can provide aerial imagery for analysis and mapping, enhancing precision farming practices.

Our Services

1. We provide 1 Year Warranty. Buy with confidence.
2. If you are not satisfied when you receive your item, please return it within 14 days for a replacement or money back. Please contact me before you return it.
3. If item is defective in 3 months, We will send you a replacement without extra charger, or offer refund after we receive the defective item.
4. If item is defective after 3 months, you can still send it back to us. We will send you a new one after receiving the defective item. But you have to pay the extra shipping fee.

FAQ

Q1: Do you support OEM/ODM?

A1: Yes. We can print your logo on the product.

Q2: About samples.

A2: Under normal circumstances, samples will be ready within 7 days, and 10-20 days for OEM/ODM orders. Sample fee and shipping will be charged.

Q3: What is the delivery time?

A3: For regular orders, we can ship within 15 days, for OEM/ODM, we can ship within 25-45 days (depending on the quantity). In the event of delays, we will notify you in advance of the status and resolution.

Q4: What is the minimum order quantity?

A4: There is no MOQ for wholesale (1 piece accepted), including OEM/ODM.

Q5: What are your payment terms?

A5: L/C.TT100%.

Q6: Can you reduce the shipping cost?

A6: When calculating the shipping cost for you, we always choose the cheapest and safest express. Although we have partnerships with shipping companies, we can't keep costs down because it's not us who get paid. If you think it's expensive for you. You can always make your own choice.

Q7: Return policy.

A7: If you want to replace the received item, you must contact us within 7 days after receiving the item. Returned items should be in their original condition and you should pay for additional shipping.
