

## MK55 Remote Uav Data Link Drone Image Transmission System

### Our Product Introduction

for more products please visit us on [uav-vtoldrone.com](http://uav-vtoldrone.com)

#### Basic Information

- Place of Origin: Guangdong, China
- Brand Name: GS
- Model Number: MK55
- Price: Negotiable
- Delivery Time: 6-8
- Payment Terms: T/T
- Supply Ability: 100

#### Product Specification

- Model Number: MK22/55
- Air Size: 10cmx6.3cmx2.2cm/150g
- Ground Size: 25.6cmx25.6cmx9.4cm/1.9kg
- Operating Frequency Range: 800MHz/1.4GHz/2.4GHz
- Channel Bandwidth: 5MHz/10MHz/20MHz
- Modulation Mode: OFDM
- Output Power: MK22: 30dBm+1dB; MK55: 33dBm+1dB
- Sensitivity:  $\leq -92$ dBm
- Communication Distance: MK22: 22km; MK55: 55km
- Air Bitrate: Max. 30Mbps
- Power Supply Range: DC9-28V(Battery3S~6S)
- Power Consumption:  $\leq 8.5$ W
- Operating Temperature:  $-40 \sim +70$
- Storage Temperature:  $-40 \sim +85^{\circ}\text{C}$

## Product Description

### MK55 Remote UAV Data Link Drone Image Transmission System

#### Product Specifications

Attribute	Value
Model number	MK22/55
Air Size	10cm × 6.3cm × 2.2cm / 150g
Ground Size	25.6cm × 25.6cm × 9.4cm / 1.9kg
Operating frequency range	800MHz/1.4GHz/2.4GHz
Channel bandwidth	5MHz/10MHz/20MHz
Modulation mode	OFDM
Output power	MK22: 30dBm+1dB; MK55: 33dBm+1dB
Sensitivity	≤-92dBm
Communication distance	MK22: 22km; MK55: 55km
Air Bitrate	Max. 30Mbps
Power supply range	DC9-28V (Battery 3S~6S)
Power consumption	≤8.5W
Operating temperature	-40 to +70
Storage temperature	-40 to +85

#### Key Features

- Modular design for flexible configuration
- Supports point-to-point networking
- High-gain antenna for superior signal strength
- Extended transmission distance up to 22KM/48KM
- Ultra-low latency for real-time data transmission
- Simultaneous multiple video transmission capability

Great Mainlink

## MK55 REMOTE UAV DATA LINK

The transmission distance of MK55 is up to 48 km. Its control method and SDK are basically the same as Maestro series of picture transmission compatible interface and usage method.

**48** <sup>km</sup>  
Communication  
distance

**70** <sup>ms</sup>  
Transmission  
delay

## PRODUCT FEATURES

Great Mainlink

The MK55 has a unified web configuration interface  
for easy upgrade

Modular  
design

Point-to-point  
networking

High-gain  
antenna

48KM

Low delay  
algorithm

Simultaneous  
transmission

# MK55

## Use Integrated Design

Great Mainlink

MK55 remote UAV data link system continues Maestro series wireless HD image transmission design and use style, powerful, high integration.

Great Mainlink

## Efficient installation Easy to use

MK55 ground end with 1/4 screw port, can be directly mounted on the universal tripod, easy to use. Users can access drone video and data by connecting a standard high-strength flexible cable directly to the ground station system.

**1/4**  
Screw opening

## Rich Interface Transmission Is Easier

Great Mainlink

Great Mainlink

# Rich interface

**SBUS**  
Dual

**RS232/TTL**  
Dual serial port

RESET

Great Mainlink

## MK55 Use Integrated Design

MK55 point-to-point communication distance reaches 48 km, using low delay algorithm, transmission delay as low as 7 milliseconds.

Great Mainlink

## ACCESSORIES

## PRODUCT SPECIFICATION

Model Number	MK22
Operating Frequency Band	800MHZ/1.4GHZ
Data Delay	Less than 30ms
Sensitivity	$\leq -92\text{dBm}$
Weight	Air 150g
Size	Air 100 X 62 X22mm

Interface	UART/SBUS/RJ45/ETHERNET
Power Supply Range	DC 9~28V
Channel Bandwidth	5MHz/10MHz/20MHz
Air speed	Max 30Mbps
Modulation Mode	OFDM
Output power	33DBM±1DB
Operating Temperature	-40℃~+70℃

## Our Services

- 1 Year Warranty included for all purchases
- 14-day return policy for unsatisfied customers (contact required before return)
- Free replacement for defective items within 3 months
- Post-warranty replacement available (customer covers shipping)

## Frequently Asked Questions

### Do you support OEM/ODM?

Yes. We can print your logo on the product.

### About samples:

Samples ready within 7 days (10-20 days for OEM/ODM). Sample fee and shipping charged.

### What is the delivery time?

Regular orders ship within 15 days; OEM/ODM within 25-45 days (quantity dependent).

### What is the minimum order quantity?

No MOQ for wholesale (1 piece accepted), including OEM/ODM.

### What are your payment terms?

L/C or TT 100% payment accepted.

### Can you reduce the shipping cost?

We always select the most economical shipping option available.

### Return policy:

Replacements must be requested within 7 days of receipt. Items must be in original condition.
