## NV16 Agricultural Drone crop spraying drone Can Hold 16L

### Payload capacity (16L) :

The NV16 can carry up to 16 liters of fluid, making it ideal for effectively covering medium-sized fields without the need for frequent refills.

This capability strikes a balance between operational efficiency and operability.

### Electric Power (EV) :

As an electric drone, the NV16 is powered by a high-capacity lithium-ion battery, ensuring quieter and more environmentally friendly operation.

Typical flight times range from 15 to 25 minutes, depending on payload and environmental conditions.

The replaceable battery pack allows for quick replacement in the field, minimizing downtime during operation.

### Durable and weather resistant design:

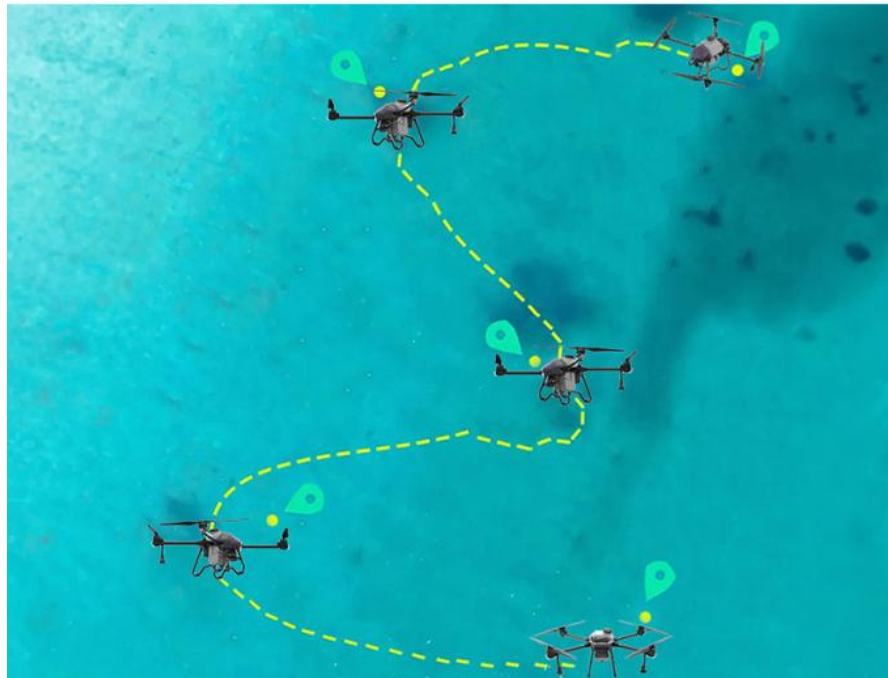

NV16 is designed to withstand harsh agricultural conditions and is made of rugged materials that protect against dust and moisture.

Its waterproof design allows it to operate in light rain, but heavy rain should be avoided.
