## HV Agricultural Drone Can Hold 50L drone aerial spraying

### Large payload capacity (50L) :

The 50-liter tank covers a wide range and is ideal for large farms that require efficient application of pesticides and fertilizers. This capacity greatly reduces the need for frequent replenishment and optimizes operational efficiency.

### Power system:

HV drones are powered by high-capacity lithium-ion batteries for environmentally friendly and quiet operation. The flight time is generally 25 to 35 minutes, depending on load and environmental factors. The replaceable battery pack can be quickly replaced for continuous operation.

### Advantages of HV Agricultural drones:

**High efficiency:** The 50L capacity enables wide coverage and is suitable for large agricultural operations.

**Environmentally friendly operation:** Electricity reduces carbon emissions and promotes sustainable development.

**Cost effective:** Automation reduces labor costs and increases overall productivity.
