

Tethered UAV Systems Portable Tethered LED Lighting

Our Product Introduction

for more products please visit us on uav-vtoldrone.com

Basic Information

- Brand Name: GS
- Model Number: SF-70X-100M
- Minimum Order Quantity: 1
- Price: Negotiable
- Delivery Time: 6-8
- Payment Terms: T/T
- Supply Ability: 100

Product Specification

- Dimensions Of J3 Drone: 600*600*300mm
- Wheelbase Between Diagonal Motors: 735mm
- Weight: Lamp Board ≤50g, Strip Light ≤200g
- Maximum Load: 3kg
- Hovering Accuracy: ±0.1 M
- Location Accuracy: 1cm+1ppm(Horizontal)1.5cm+1ppm(Vertical)
- Maximum Wind Speed Tolerance: Force 7 15m/s
- UAV Flight: ≤300W
- Dimensions Of The Tethered Box: 422*350*225mm
- Equipment Weight: 13kg±1kg
- Cable Length: ≥100m
- Cable Diameter: ≤4mm
- Output Power And Voltage: Adjustable Range 0-4000W voltage 200-

Product Description

Tethered UAV Systems portable tethered LED lighting

The Tethered UAV Lighting System is a 100 - meter tethered lighting system developed and designed for the night - time emergency lighting market. It meets the demand for long - endurance lighting in specific scenarios such as night - time search and rescue, construction, maintenance, and supplementary lighting. This product can effectively illuminate an area of over 3,000 square meters continuously for 8 hours, effectively solving the problem of night - time lighting. It is an essential tool for emergency rescue teams, as well as for use at night in the railway and power grid markets, with huge market potential

The tethered lighting system is mainly used in night - time emergency lighting scenarios, providing efficient and reliable lighting support for various complex environments. For instance, in disaster - site search and rescue, it offers clear vision to rescue workers, facilitating the rapid location of trapped people. During emergency water - surface rescue, it illuminates the water surface, enabling the rescue team to carry out precise rescue operations. When it comes to the emergency repair of high - voltage power grid towers and night - time construction of photovoltaic solar energy, it ensures that workers can complete tasks safely and efficiently in low - light conditions. In railway night - time construction, it provides sufficient lighting for track maintenance and construction work. Moreover, it can be applied to the fill - lighting scenario in film shooting, supplying a stable light source for night - time shooting. In the night - time drills of the military pontoon bridge brigade, it offers comprehensive lighting support for the construction work on the river surface. During traffic road clearance operations, it quickly illuminates the accident site, guaranteeing the smooth progress of road - clearing work. In conclusion, with its powerful lighting capabilities and flexible application scenarios, this system has become an essential tool in night - time emergency operations

Our Services

1. We provide 1 Year Warranty. Buy with confidence.
2. If you are not satisfied when you receive your item, please return it within 14 days for a replacement or money back. Please contact me before you return it.
3. If item is defective in 3 months, We will send you a replacement without extra charger, or offer refund after we receive the defective item.
4. If item is defective after 3 months, you can still send it back to us. We will send you a new one after receiving the defective item. But you have to pay the extra shipping fee.

FAQ

Q1: Do you support OEM/ODM?

A1: Yes. We can print your logo on the product.

Q2: About samples.

A2: Under normal circumstances, samples will be ready within 7 days, and 10-20 days for OEM/ODM orders. Sample fee and shipping will be charged.

Q3: What is the delivery time?

A3: For regular orders, we can ship within 15 days, for OEM/ODM, we can ship within 25-45 days (depending on the quantity). In the event of delays, we will notify you in advance of the status and resolution.

Q4: What is the minimum order quantity?

A4: There is no MOQ for wholesale (1 piece accepted), including OEM/ODM.

Q5: What are your payment terms?

A5: L/C.TT100%.

Q6: Can you reduce the shipping cost?

A6: When calculating the shipping cost for you, we always choose the cheapest and safest express. Although we have partnerships with shipping companies, we can't keep costs down because it's not us who get paid. If you think it's expensive for you. You can always make your own choice.

Q7: Return policy.

A7: If you want to replace the received item, you must contact us within 7 days after receiving the item. Returned items should be in their original condition and you should pay for additional shipping.
