Product Description

1080p visible light +640 thermal imaging +1100 m laser ranging

DHU290G609L11 is an integrated 1080P visible-light camera, 9.1mm focal length 640×512 thermal imaging module, and supports 9x digital zoom. 1100m laser ranging. The high-precision three-axis enhanced stability pod has the features of high stability, small size, light weight and low power consumption by using dual output of network IP and HDMI. The visible light camera uses a wide dynamic SENSOR with an effective pixel of 2 million. A vanadium oxide detector with a resolution of 640×512 was used for thermal imaging. The system supports network RTSP stream output, four picture-in-picture modes, ten pseudo-color displays, and global temperature measurement. Both serial port and network can control the camera and PTZ, and support local TF dual recording and photographing.
